TERMS OF REFERENCE FOR SCC/CI NET ASSESSMENT

GENERAL

Use Baseline Report as foundation for netting separately for each threat, area, operational technique, etc. Use scenarios as appropriate to develop and delimit responses. Limit threats and countermeasures to peacetime only.

1. Appraisal of U.S. Government capabilities for collation and analysis of all information on:

- foreign intelligence threats; and
- international terrorist threats.

- a. Mission, location and scope of data centers and related analytical centers.
- b. Interagency data center link-ups and analytical center link-ups.
- c. Use of product
- d. Adequacy of above in relation to:
 - HUMINT threats
 - SIGINT threats
 - IMAGERY threats

2. Appraisal by foreign intelligence services and by international terrorist groups/patrons of relative U.S. Government countermeasure capabilities and weaknesses.

3. Relative net effectiveness of present U.S. Government countermeasures against foreign intelligence service activities targeted against the United States.

- Communist Bloc intelligence services
- Selected other intelligence services

Cover separately net effectiveness of countermeasures involving each of the following, doing so from a multidisciplinary vantage point where appropriate, otherwise from a single discipline viewpoint. Include past trends as well as current situation and prospects.
